

LNG FACTS

AES Sparrows Point LNG proposes to bring more clean-burning natural gas to Maryland. More supply means lower costs. Lower natural gas costs mean lower electric costs because gas is used to make electricity. Here's a related **LNG ECONOMIC FACT:**

LNG HELPS YOU & THE ECONOMY

- AES will bring more than 4-million man hours of union jobs during construction and \$200+million in benefits to the local economy.
- \$40+ million per year in operating and business-support expenditures with local vendors.
- \$13+ million per year in state & local government taxes.
- No government subsidies.
